- Particularly in Emancipatory Datafication Strategies driven by Disruptive Technologies such as **Blockchain**, **DAOs**, and **Data Co-operatives**.

My Research Intuition in 2022

DAO Workshop 2022: Dr Igor Calzada, as Fulbright Scholar, shared his intuition last year about the potential of **Blockchain**, **DAOs**, and particularly **Data Cooperatives**.

Dr Igor Calzada believed these disruptive technologies can reshape the digital citizenship towards Web3 through emancipatory datafication strategies.

Blockchain Driven e-Diaspora Platform

<https://www.hanhemen.eus/en/>

1. *HanHemen* (*ThereHere* in Basque language)
2. Inspired by MONDRAGON co-operative model and ethos
3. Aim: Connect Basque diasporic/digital citizens/nomads scattered around the world
4. Led by the Basque regional government, with the direct involvement of **1,385 end-users worldwide**.
5. Online survey:
 - a. 62% demonstrated support for digital nomadism
 - b. 84% expressed concerns about data privacy/extractivism.
6. Work-in-progress:
 - a. The platform is being co-produced with end-users by employing blockchain-driven wallet to establish varying levels of data privacy
 - b. and eventually evolving towards a DAO
 - c. by offering services and tokens to be operationalised as a data co-operative too, given the strong co-operative ethos existed for decades in the Basque Country.
